## SCHEME FOR NEW BANKS DIES.

O CHARTERS FOR NUGENT'S

How Had Planned a State Bank, a Savings Bank, a Title Company and Safe Deposit Vaults All in One Building- Got No Further Than to Offer Stock.

pew banks are illustrated by the complete disappearance within the last few days of the Van Courtlandt Bank, the Gotham Safe Deriosit Company, the Equibank, as yet unnamed, which certain persons had planned to open in the small and by no m ans elaborate building at 187 Greenwich street. The four institutions has had some success as a promoter.

Early last summer a large sign appeared side of the building, which had been without a tenant for some time, stating and would open up within a few weeks. A rasserby, who was attracted by a somelose resemblance of the names to well krown financial institutions, attempted to He was told that a savings bank would also be opened in the same building later on.

The months passed by, but the bank did set open nor did any of its allied companies. did not look with favor upon uch a crowded financial corner, and esviewed with disfavor the project

the newspapers offering for nital stock of the Van Courtlandt Bank. It was stated that the bank would ave a capital of \$100,000 and a surplus of some. The terms of the subscription ware 10 per cent. upon signing of the applicaon and the bulance upon allotment. Tha for was signed by Frederic F. Nuge at,

so executions against the Equit Able Title Garantee Company, one for 614 and the her for \$2,000 in favor of Constantine M. cheid for rent. When the Sheriff went to furniture in the building belonged to the Courtland Ba & and the Gotham Deposit Comproy. He had little sucthe judgments. Since en boarded up tightly and there has been sign of life, it, any of the four financial

s familio, with the case, said yesterday hat the bank and its three allied comhad been talking about starting barter being granted to any of them. e reason for the bank's failure to get a harter was its inability to show any funds

Sofaras is known Mr. Nugent is the only cker that the four institutions have. Nurent could not be found yesterday.

## GOSSIP OF WALL STREET.

Publication of the usual weekly estimates

the currency movement was followed by a renewal of liquidation during the last FOUR FINANCIAL INSTITUTIONS. hour of trading yesterday as the loss of cash indicated that the bank statement would even be worse than had been generally ex pected. Despite the improved outlook for imports of gold within the next few weeks. the money situation continued to excite serious fears, and not with standing the decline in prices within the week many brokers advised their customers to remain out of the market for the present, and in a few instances the advice was to limit losses on stocks already held so as to be able to take advantage of fur-ther breaks should these occur. Street senti-ment was very bearish and on any number of to ten points. The reversal from the optimism of a few weeks ago was complete and every-thing was painted in the bluest coloring. If there were a few who held bullish views those who could give reasons why this per cent, or more were accounted prophets. Wherever the short interest was mentioned as furnishing a basis for a possible vigorous rally a chorus of voices asked: "Whose interest is it to put stocks up?" And yet it ust before the close of the day's business.

Next to the money situation the continued exodus of prominent men from Wall Street was the most influential bear argument. Unlike other recent days very little was heard of the possibility of a coal strike as an adverse factor. With all the leading interests enjoying a holiday, it was argued, there would be no one left who had sufficient influence to turn the market or even lead an attack on the shorts. It was entirely useless to recall that the market had at times in the past turned very sharply under similar circumstances The bears were too much engaged in hugging themselves to listen to argument or indulse

In some quarters it was argued that the heavy capital issues announced during the week were the best evidence that the leading fr helal and railroad interests anticipated a continuance of prosperity, as otherwise a policy of expansion and development would not be entered upon. There might be cases where work had already been done and liathe new money was to be used for contemferred and would undoubtedly be postponed were not strongly convinced that growth of mike a levy he was ir formed that the that with them the railroads would be ensurplus earnings.

The New York Central pool kept itself in the Sheriff mad, his call the building has tained a pretty strong undertone and the Street was flooded with rumors of some pending development of importance affectvague to attract much attention, but a few traders and speculators thought that the buying was sufficiently good to justify them in taking on a little stock for a turn. The fact that Central had in the past made some money for the bulls even when the general list afforded very few opportunities commended the movement to those whose eyes were always open to turns of a point or so. In the last hour, however, the price dropped off sharply and traders who had bought early hastened to rid themselves of their commitments. Stop orders were caught on the decline and the bulls did not seem to have the courage to keep up the promises of a deal o

> prices was the substantial advance in Chicago and Northwestern, which had some relation ment that constituted the bullish factor in and Northwestern, which had some relation to the early manipulation in New York Central. although the former stock was but little difference in the action of the stocks in the last hour was apparently due to the fact that the trading element had followed the upward movement in Central and taking fright on the apprention of the antitractic labor difficulty was generally looked for and it was said that about all that had been done by the operators' representatives took the attitude at the conference on Thursday that all the apprentices of the Antitractic labor difficulty was generally looked for and it was said that about all that had been done by the operators' representatives took the attitude at the conference on Thursday that the apprentice of the Antitractic labor difficulty was generally looked for and it was said that about all that had been done the action of the Antitractic labor difficulty was generally looked for and it was said that about all that had been done by the operators' representatives took the attitude at the conference on Thursday. on the appearance of general weakness threw that as the whole matter had been threshed over their early purchases, while in the North-west as no speculative following had been board and that since as far as they were con-

An instance of the indifference of the market to favorable news was furnished in the fact that Missouri, Kansas and Texas went down with other stocks after the publication of a highly favorable statement of earnings

The announcement of a \$25,000,000 notexpected and therefore had no influence as a market factor. There was a good deal of bearish talk based on this development in the road's affairs, but it did not apparently form the basis of any considerable amount of selling. The stock acted about as well s others in the same class.

Metropolitan was heavy, although the trans-orions amounted to only a small total, and it was argued that the earnings for the uarter ended December 31 were not ex. Sandy Hook 147 Gov. Island 2.10 Hell Gate... 4:12 quarter ended December 31 were not extraordinarily large most people thought a gain which averaged over \$50,000 in gross gain which averaged over \$50,000 in gross for each month was about as much as could have been expected. The general belief was that the merger would result in further increase of business and in some important economies, so that the new common stock would in time possess value greatly abovits present quotations.

In spite of very heavy selling in the firs hour United States Steel issues acted well, and while there probably was liquidation of 1905. 1904. Changes. 1905. \$170.324 Inc. \$42.502 100ked as if a good part of the transactions represented short selling. The buying looked good, although in some quarters it was contended that what appeared to be genuine tended that what appeared to be genuine tended that was merely support lent some fairly large speculative accounts it also \$6.519.181 \$6.891.186 Dec. \$372.955 | absorptive demand was merely support lent 5.628.298 4,078,176 Dec. 259.970 | with a view to preventing a serious break \$2,603,355 \$2,812,020 Dec. \$121,065 with a view to preventing a serious break, with all that this would convey to the general market. The rumors that the boom in the steel and iron trade had already begun to wane received no attention from the more intelligent class of traders, as it was generally recognized that so far from the culmination having been reached the principal anxiety felt by the management of the Steel Corporation was over the probability that orders would continue to accumulate at a faster would continue to accumulate at a faster rate than they could be taken care of. In-ability to meet demand might make a price boom, forcing buyers to offer inducements for early delivery, but such a condition had not arrived yet, although there were plenty of indications that only by continued effort on the part of the iron and steel makers could it be averted.

Disappointment over the fact that no melon could be expected for the present led to considerable selling of Northern Pacific, and on the decline a number of stop orders were met with, adding to the rapidity of the downward move. Improbable as it may seem there had been some expectation that the road would in some way benefit from the Great Northern ore deal, either through inclusion of the lands along the St. Paul and Duluth or by some application of the proceeds of the sale which would involve the payment of a larger sum to Northern Facific in con-nection with a change in the present status of Burlington. The fact that nothing of the kind seemed likely to occur led to liquidation of a considerable amount of specula-tively held stock. It was said that nothing had been done in the direction of disposing of the ore lands along the St. Paul and Duluth division, that the Burlington joint fours would not be retired before the end of the year and that no increase of capital stock or

The firmness of Smelter and Lead added to the force of predictions made a couple of weeks ago to the effect that there would be "something doing" in these stocks after the middle of the month. What this would be was only vaguely hinted at, although the intimations pointed to a merger of United the intimations pointed to a merger of United tring been bid for round lots within a mercian Smelting and Refining. True to Lead and the stocks indicated the presence of a good buying demand, while rumors bead, and the consumption of copper must resarrily be very heavy." Lead and National Lead in the interest of American Smelting and Refining. True to

PLAN FOR THE PURCHASE OF 320,000 SHARES OF THE COMMON CAPITAL STOCK OF THE PHILA-DELPHIA COMPANY BY THE UNITED RAILWAYS INVESTMENT COMPANY OF SAN FRANCISCO.

The United Railways Investment Company of San Francisco has now an issued capital of:

On January 31, 1906, the stockholders authorized an increase of the Common Capital Stock of that Company of \$15,000,000, giving the Investment Company an authorized Common

mentioned below, the Investment Company offers to purchase 320,000 shares of the Common Capital Stock

mentioned below, the investment Company offers to purchase 320,000 shares of the Common Capital Stock of the Philadelphia Company for \$12,000,000 of the First Lien Collateral Trust Sinking Fund Gold Bonds and \$6,400,000 of the Common Capital Stock of the Investment Company.

The bonds are to be secured, on the basis of \$37.50 of bonds for each share of stock acquired, by a first lien upon the stock of the Philadelphia Company purchased under this plan. In order that the bonds may be tax free under the laws of Pennsylvania, suitable provision to be made in the trust agreement securing the same, for the investment Company to reimburse any Pennsylvania holder for any tax (other than inheritance or Succession tax), which legally he may be obliged to pay on said bonds.

The Collateral Trust Agreement is to provide, that while and so long as any of said bonds shall be issued and outstanding, the investment Company will not mortgage or hypothecate any of the shares of preferred or common stock of the United Rallroads of San Francisco now owned by it.

Under the Proposition each share of Philadelphia Company Common Stock (of the par value of 

sition, a Syndicate has been formed to acquire from any depositing Philadelphia Company stockholder, the common stock of the Investment Company so payable to such depositing a a sum equal to \$95 per share for such Investment Company Common Stock, so that each depositing Philadelphia Company

Common Stockholder may receive, under the Proposition, if he prefers, for each such share of Phila-

mon Capital Stock of the Philadelphia Company have been declared to have been deposited with the Depositary hereunder, as provided in said Proposition, within which to elect to take cash for such Inhis certificate, as provided in said Proposition. If more than 320,000 shares of the common stock of that Company are deposited under the Proposition annexed, the Investment Company must purchase a pro rate of the stock of each depositor, if

should determine not to purchase all of the stock deposited under said Proposition.

Under arrangements stated in said Proposition. Messrs. Ladenburg, Thalmann & Co. have formed a Bond Syndicate for the purpose of purchasing bonds to be issued under the Proposition, to such an extent as in their discretion they have determined advisable, to secure the completion of the Plan and to promote the interests of the Investment Company in connection therewith.

The Proposition is conditional upon approval by the stockholders of the Investment Company. referred to the Proposition on file with the Depositary and will be held to be bound by the provisions

New York, January 24th, 1906.

TRADE CONDITIONS

Helped in Some Lines by Colder Weather Outlook for Business Good.

Weather conditions have continued to stimulate retail trade in seasonable mer-

chandise, says Dun's Review to-day, part of the earlier unsatisfactory results being offset

by a vigorous demand for winter clothing and footwear, while household consumption

of fuel has revived retail trade. Nor has the

possibility of a strike unsettled confidence in the future, jobbing and wholesale sales of dry goods for the spring trade reaching a

greater aggregate than last year.

Bradstreet's also calls attention to the promise of a good spring trade in dry goods, clothing, shoes and millinery. Retail trade, it believes, has been considerably helped by the weather, but stocks will unquestionably be carried over, because reorder business has not been heavy, owing to the mild weather ear: r in the season.

FINANCIAL NOTES.

Horace C. Stebbins and Arthur Iselin have been elected directors of the Lincoln Trust Company. A new branch is soon to be opened at Seventy-second street and Broadway to occupy the old Colonial Club building, which will be remodel ed for the purpose.

The Greenwich Bank is planning to come.

The Greenwich Bank is planning to open a branch at Broadway and Eighteenth street.

A. M. Davis, formerly assistant to President Hatfield of the American Bridge Company, has been elected a vice-president.

William H. Ziegler has resigned as a director of the United States Title Guaranty and Indemnity Company.

demnity Company.

A meeting of the Clearing House Association has been called for Monday next at 2 o'clock, for the purpose of taking action upon an amendment to the National Banking act now before the Committee on Banking and Currency of the House. The amendment proposes to add the words "and surplus" after the words "capital stock" in the section limiting Icans to any individual or cornoration to 10 per cent. of the capital of the lending institution.

A. B. Leach & Co. have purphased \$500 000.

ing institution.

A. B. Leach & Co. have purphased \$500,000 Western Union collateral trust 5 per cent. bonds, maturing January 1, 1938, and are offering them at a price to net the investor approximately 45 per cent.

Further details of the Mexican Central note issue were published yesterday. Ladenburg. Thalmann & Co. and Hallgarten & Co., with whom are associated the Berliner Handelsind Industrie and the Berliner Handels. Gesellschaft of Berlin, have closed a contract to underwrite \$33,000,000 four year notes to provide for the refunding of \$20,000,000 of short term obligations outstanding and to convert into the refunding issue an issue of \$9,000,000 notes dated September 1, 1905, and to provide for corporate requirements of the railway.

PITTSBURG. Feb. 16.-It is announced

here to-day that the proposed merger of

the various properties of the La Belle Iron

and Steel Company with those of the Re-

public Iron and Steel Company has been

abandoned owing to the expiration at last midnight of the options on the stock of the former company, and it is announced that

COPPER AND TIN.

quotes the same kinds at 184c. for future delivery.

Phelps, Dodge & Co., who have been en

gaged in the wholesale metal business since 1823, have decided to give their attention wholly to the mining and refining of copper The foreign copper markets, as reflected by bona fide sellers and buyers, are firm.

The London Metal Exchange quotations are £78 for spot and £75 los, for futures.

Pig tin in this market is in small supply and prices are firm at 36%c. The bulls on the London Metal Exchange are not so rampant as they were earlier in the week, having learned that the output from the Straits during three months to come will be much larger than they affected to believe. The

PUBLIC NOTICES.

WHEREAS, THE COMMISSIONER OF Water Supply, Gas and Electricity of The City of New York, acting for and in behalf and in the name of The City of New York, in pursuance of the provisions of chapter 480 of the Laws of 1901, as amended, has selected and determined certain real estate (as the term'real estate) is defined in the said act, in the County of Queens, as and for sources of public water supply in and for The City of New York, and deems it necessary to take and acquire the same and all the rights, titles and in terests therein, and to extinguish all claims for damages on account of such rights, titles and interests or growing out of such taking, for the purpose of maintaining, preserving and increasing the supply of pure and wholesome water for The City of New York, and of providing additional water works to supply The City of New York with water, said lands being required for the building of additional pipe conduits, and Whereas, the said Commissioner has prepared and submitted to the Board of Estimate and Apportionment under date of January 17, 1908, a map showing the said real estate to be taken and acquired as aforesaid, as provided in the said act; therefore, be it.

Resolved, That a public notice be given of PUBLIC NOTICE.

imap showing the said real estate to be taken and acquired as aforesaid, as provided in the said act therefore, belt

Resolved. That a public notice be given of a hearing to be held by the Board of Estimate and Apportionment of The City of New York. In the Old Council Chamber, Room 16. City Hall. Borough of Manhattan, City of New York, on the gith day of March, 1906, at 10:30 o'clock a. m., at which a full opportunity shall be alorded to any and all persons interested, to be heard respecting such map and the taking and acquisition of the real estate as shown thereon.

COPPER AND TIN.

Domestic Markets Are Bull—Small Visible
Supply of Electrolytic Copper.

There is little business doing in copper in the home markets. There is a demand for electrolytic copper from the wire drawers and electrical apparatus factories, and several rolling mills are in the market for high grade metal. But there is not enough electrolytic to be had before May and June to go half way around.

Four large producers have been for the past month taking orders for copper that is still in the unmined. Three producers are sold out till the last of September. Good casting brands of copper are hard to find. New York is away down to the bottom of the bin as to spot copper and the same is the case in other large cities of the coast and interior. Six selling agencies quote 12%c, for electrolytic and lake—future delivery. One agency quotes the same kinds at 18%c, for future delivery.

Attest: JAMES E. HEWEY, Clerk. PLANS TO MEET TWO CENT RATE.

Power-Expect Rate to Become Universal. Chicago, Feb. 16.—Railroad operating Oper. cxp..... officials believe the passage of the two-cent a mile law by the Ohio Legislature will give impetus to experiments in progress all over the country with the view of obtaining more economical motive power than steam. For local passenger traffic where travel is light the substitution of cheaper equipment will become necessary, they say, and gasolene or some other motive power must be found. It is believed that the two cent rate in all the territory east of the Missouri River is inevitable. former company, and it is announced that all attempts toward a consolidation will be abandoned.

The amount affoat for all American ports is 3.215 tons. London quotes £164 10s. for spot and £168 for three months.
